

MEWP OPERATOR/TELEHANDLER
TRAIN THE TRAINER

CERTIFICATION TRAINING COURSE

Safety is always job one on every work site. Most accidents or equipment damage happens when operators overlook important safety precautions or don't fully understand how to operate equipment. Whether in-person or online, Lift Service Now can help train your team to operate and maintain your equipment to its full potential.

MEWP OPERATING/TELEHANDLER IN PERSON TRAINING

**Per Operator and Certification:
\$350.00 at LSN or \$400.00 at your facility**

Our programs are designed by industry leading manufacturers to instruct operators in the safe and proper use of their equipment.

Instruction includes

- Classroom training
- Hands-on familiarization
- All training materials
- Certificate and Wallet Card

MEWP/TELEHANDLER ONLINE TRAINING

**Per Operator and Certification:
\$250.00 at LSN or \$300.00 at your facility**

Training includes a two-part blended approach. Both parts need to be completed to become a Qualified Operator.

- Classroom Training (online)
- Online access code for the classroom portion of the training
- Hands-on Evaluation to be completed at your facility or our facility.

Upon passing the exam and final module, a certificate of completion is presented as proof of training in preparation for the hands-on portion; after completing the online training, the trainee must receive hands-on familiarization from a qualified person to complete the training process and become a qualified operator.

TRAIN THE TRAINER IN PERSON TRAINING

Per Operator: \$800.00

Courses are designed to prepare participants to confidently and effectively train others in the safe and proper use of mobile elevating work platforms (MEWPs) and telehandlers. Classes are two days in length and include Mobile Elevating Work Platforms on day one and Telehandler Operator Training on day two.

Instruction includes

- Classroom training
- Hands-on familiarization
- All training materials
- Certificate and Wallet Card

For your convenience, we can schedule operator safety classes at your facility or ours depending on the number of employees needing training.
